ABOUT ME

I am a quick learner, dedicated and enthusiastic about my work, and possess strong organizational skills. I have the ability to handle multiple projects simultaneously with great accuracy.

MY RECENT PROJECTS

React-Keeper-App

Created React-Keeper-App, a clone of Google Keep, demonstrating my expertise in web development. The application, accessible at React-Keeper-App, replicates the functionality of Google Keep, allowing users to manage notes effectively.

Cake Factory Website

Crafted a visually engaging website leveraging HTML, CSS, Bootstrap, and JavaScript to showcase a diverse range of delectable cake products. The intuitive user interface, showcased at Museum of Candy, captivates visitors with an immersive display of confectionery delights.

Dog Tinder

Developed a dynamic web application utilizing HTML, CSS, and Bootstrap. The application, accessible at Dog Tinder, features a responsive design ensuring seamless navigation across devices.
